

Plant Pot Movers and Stands

The Perfect Solution for moving your heavy Plant Pots

Imagine your beautiful garden patio or your conservatory, or even indoors where you might have your much loved plants in there sometimes large & difficult to move pots.

Read how our Plant Pot Movers can benefit you!...

Simply roll the stand away from the area you are working in and roll it back when your finished.

Please don't compare these stands to others you may have seen.

- **DOES NOT ROT** like Wooden Plant Pot Movers
- **DOES NOT RUST** like Metal Plant Pot Movers
- **MORE ATTRACTIVE** than other Plastic Plant Pot Movers - ideal for indoor use.

The Benefits

- Manufactured in the UK to the highest standards possible
- The largest, strongest, safest and most durable pot mover on the market
- Unique Patented design - for strength to carry the heaviest of pots - Guaranteed to hold up 100 kg - holds even the large pots
- Attractive design – looks good on any patio with any pot
- Four strong steel castors - makes moving even the heaviest pot easy and safe Keeps plants off the floor to avoid frost damage to the root system
- A reservoir system - stops plant drying out saves water & time watering and ideal for a hot climate – conservatory, patio etc
- Made from hardwearing UV resistant material - for a long life without the colour fading
- Available in a large range of colours - a colour to match most pots
- Available in two sizes - 11 inch (28cms) & 16 1/4 (42cms) to cater for most pot sizes
- May also be used indoors on any flooring – makes moving easy and reduces the chance of water damage to carpets and floors.
